

FREIGHT SUBSIDY PROGRAM

Our new **4-inch Product Line** and **6 & 8-inch Double Taper Top forms** are currently available through only select manufacturing facilities. It is our long-term plan to have these products available through all facilities. In the meantime, we are offering special freight subsidies to help make them more economically feasible across the country so you can launch these exciting new products in your area!

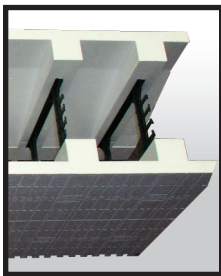

4-Inch Product Line

Our 4-inch Product Line is currently available through our Missouri, Indiana and Colorado facility.

Subsidy Rules & Qualifications:

- There is no subsidy on mileage under 400 miles.
- After 400 miles, a **\$1.00 per mile subsidy** is available **UP TO** a total subsidy of \$500.00 (for 900 miles).
- \$500.00 is the **maximum** freight subsidy available per order.
- Freight subsidy is not available with any other special discounts.
- Freight subsidy is only available on pre-paid orders OR on accounts which are current and in good standing.
- Freight subsidy is only available for **full 53' truckload** orders of 4" products.

Double Taper Top Forms

Subsidy Offer:

\$1.00 discount per double taper top form **IF** your order is fulfilled by a manufacturing facility **other than** the facility from which you normally receive products.

Our 6" and 8" Double Taper Top forms are currently available through our Alabama, Colorado, Indiana, Idaho, Massachusetts, Texas and Wisconsin facilities. If your orders are not normally delivered through one of these facilities, you may qualify for this discount.

How to Receive these Discounts

Simply place your order using our **MyBuildBlock Online Ordering System**. If your order qualifies for one of these offers, the subsidy will be deducted from your total freight cost during the final checkout process. These offers apply to self-arranged freight as well as freight handled through BuildBlock Logistics. Please contact BuildBlock Customer Service if you have questions.

Limited time offer. Subject to change without notice.
