BuildBlock® Adds Form-A-Drain™, Lite-Deck®, and Andersen® to Product Line

(Oklahoma City, OK, May 27, 2008) – BuildBlock® Building Systems LLC, manufacturer of BuildBlock® Insulating Concrete Forms (ICFs), now offers customers the Form-A-Drain™ footing system, the Lite-Deck® ICF floor and roof system, and Andersen® windows and doors. “Our goal is provide our customers with everything they need to create the total envelop of an energy-efficient structure,” said Jason Fisher, BuildBlock Business Development Manager. “These products are the perfect complement to our ICFs for accomplishing that purpose.”

Manufactured by CertainTeed, Form-A-Drain™ is a patented 3-in-1 foundation solution that forms footings, provides an integrated drainage system, and can be easily adapted to vent radon where needed. Lite-Deck® is manufactured by Lite-Form Technologies. It is a light-weight, stay-in-place EPS form used to construct concrete floors, roofs, and decks for commercial and residential construction. Andersen® windows and doors were rated “among the best” by consumers in a 2007 J.D. Powers customer satisfaction survey. Andersen’s StormWatch® line of coastal windows and doors are especially well-suited for “Fortified” ICF structures.

Product and ordering information can be found on the MyBuildBlock Online Ordering System available through the company’s website at www.buildblock.com.

BuildBlock® Building Systems LLC is the manufacturer of BuildBlock® Insulating Concrete Forms for residential and commercial construction. Headquartered in Oklahoma City, BuildBlock has manufacturing facilities in Alabama, Colorado, Florida, Idaho, Indiana, Massachusetts, Missouri, Utah, and Wisconsin, and will soon begin manufacturing in Minnesota and California.
